*Adriana Velez – founder and President of
Global-Tec Enterprises, Inc.
World Headquarters
Palm Beach County, Florida, USA*

Since Global-Tec Enterprises was founded in 2000, it has been the company's goal to understand our customer needs. We strive to make sure that your products meet their fullest potential by providing user friendly and economical delivery devices.

Our ability to continuously add new products demonstrates our commitment to respond to our customer's changing needs. Additionally, our customers have depended on Global-Tec to offer customized product design including engineering, injection molding and the manufacturing of new products.

We recognize that in order to retain your business, we are always looking to provide total customer satisfaction, attractive pricing, and quality products.

We look forward to working with you and meeting your delivery needs!

Luer-lock Syringe, 3-piece

- 3-piece syringe
- Designed for a variety of materials ranging from high to low viscosity
- Custom colors available in quantity
- Printing available.

| | |
|-------------|--------------------------------|
| 21000 | 1.2cc Luer-lock syringe, clear |
| 21001 | 1.2cc Luer-lock syringe, black |
| 22000 | 3cc Luer-lock syringe, clear |
| 22001 | 3cc Luer-lock syringe, black |
| 23000 | 5cc Luer-lock syringe, clear |
| 23001 | 5cc Luer-lock syringe, black |
| 24000 | 10cc Luer-lock syringe, clear |
| 25000 | 20cc Luer-lock syringe, clear |
| 26000 | 60cc Luer-lock syringe, clear |

Luer-lock Syringe, 2-piece

- 2-piece syringe, all plastic
- Made from Polypropylene

| | |
|-------------|---------------------------------------|
| 22300 | 3cc Luer-lock syringe, clear, 2-piece |
| 23300 | 5cc Luer-lock syringe, clear, 2-piece |
| 24300 | 12cc Luer-lock syringe, clear 2-piece |

Luer-slip Syringe

- 2-piece syringe, all plastic
- Made from polypropylene
- Printing available.

| | |
|-------------|--|
| 21200 | 1cc Luer-slip syringe, clear, 2-piece |
| 22200 | 3cc Luer-slip syringe, clear, 2-piece |
| 23200 | 5cc Luer-slip syringe, clear, 2-piece |
| 24200 | 10cc Luer-slip syringe, clear, 2-piece |

3cc Female Syringe, 2-piece

- 2-piece syringe designed to transfer materials to a larger and smaller syringes
- Made from polypropylene

| | |
|-------------|-------------------------|
| 27000 | 3cc, clear - female end |
| 27002 | 3cc white - female end |
| 27001 | 3cc black - female end |

3cc Female Syringe, 3-piece

- 3-piece syringe designed to transfer material to a larger and smaller syringes
- Made of polypropylene with a non reactive rubber piston

| | |
|-------------|------------------------|
| 27200 | 3cc clear - female end |
| 27202 | 3cc white - female end |
| 27201 | 3cc black - female end |

Specialty Syringes

Composite Screw Style Syringe with Cap, 5ml

- 5 piece syringe
- Easy to assemble
- Non stripping threads
- Made from Polypropylene
- 4 sizes available
- Custom colors available

61001 5ml Composite Screw Style Syringe, 2mm, black
62001 5ml Composite Screw Style Syringe, 4mm, black
63001 5 5ml Composite Screw Style Syringe, 5mm, black
64001 5 5ml Composite Screw Style Syringe, 6mm, black

Double Barrel Manual Dispensing Syringe, 8ml

- 3 piece
- Designed for medium to high viscous materials
- Plunger is designed with a sweeping, all plastic, stopper that is ideal for materials needing a non-reactive plunger
- Option of adding o-ring available for extra seal security
- Snug fitting caps fits "one-way" only to eliminate possible contamination
- Made from Polypropylene

65002 White double barrel syringe with cap, manual 8ml
65001 Black Double barrel syringe with cap, manual 8ml
65000 Clear double barrel syringe with cap, manual 8ml

Double Barrel Syringe with Static Mixers; 5 ML (2.5 ML each barrel)

- Barrel, Cap and Mixer made of Polypropylene
- Plunger made of Polyethylene
- Piston made of Silicone
- Custom colors available
- Printing available

652001 Double Barrel Syringe, Barrel & Plunger, Black
652002 Double Barrel Syringe, Cap, Black
653001 Double Barrel Syringe, Barrel & Plunger, White
653002 Double Barrel Syringe, Cap, White
654001 Double Barrel Syringe, Barrel & Plunger, Clear
654002 Double Barrel Syringe, Cap, Clear
652003 Static Mixer, 8 element, black
652004 Static Mixer, 8 element, clear

Push Syringe, Wing Style with Cap, 5ml

- 3-piece syringe with o-ring
- Made from Polypropylene
- Custom colors available
- 3 orifice sizes available, 1m, 2mm, 2.5mm

66001 Push Syringe, Wing Style with Cap, 1mm, black
67001 Push Syringe, Wing Style with Cap, 2mm, black
68001 Push Syringe, Wing Style with Cap, 2.5mm, black

Irrigating Syringe with curved plastic tip, 12ml

- 3 piece syringe with silicone rubber stopper
- Made from Polypropylene

60350 Irrigating Syringe with curved tip

Impression Syringe

- Bendable Tip
- Assembled
- Made from Polypropylene

60200 Impression Syringe

Unit Dose, Luer-lock Syringe, 0.5cc

- Ideal for high pressure dispensing with low force
- Works well as a unit dose delivery system
- 3-piece syringe
- Made from Polypropylene with a non-reactive rubber piston
- Custom colors available

69003 UV Brown 0.5cc unit dose syringe
 69001 Black Opaque 0.5cc unit dose syringe

High Pressure Luer-lock Syringe, 1.2cc

- Autoclavable.
- Textured finger grips.
- Graduated in cc increments.
- Made from Polypropylene

21201 High Pressure 1.2cc LL Syringe

Fluted Cap

- Fits on luer-lock and luer-slip syringes
- Made from Polypropylene

52002 Fluted Cap, white
 52001 Fluted Cap, black
 52000 Fluted Cap, clear

Screw Style Cap

- Threaded caps are designed to fit luer-lock syringes
- Made from Polypropylene

51002 Screw Style Cap, white
 51008 Screw Style Cap, black
 51001 Screw Style Cap, clear

Dispensing Tips With 1/2" Bent Cannula

- Available in 14 gauge - 28 gauge
- Made from Polypropylene and stainless steel
- Luer-lock hub
- Custom colors available for hub
- Custom lengths available
- Customer packaging available

| | |
|-------|---------------------------------------|
| 31000 | 14 gauge dispensing tip, bent, green |
| 32000 | 15 gauge dispensing tip, bent, orange |
| 33002 | 16 gauge dispensing tip, bent, white |
| 33001 | 16 gauge dispensing tip, bent, black |
| 34000 | 18 gauge dispensing tip, bent, pink |
| 34001 | 18 gauge dispensing tip, bent, black |
| 35000 | 20 gauge dispensing tip, bent, yellow |
| 35001 | 20 gauge dispensing tip, bent, black |
| 36000 | 22 gauge dispensing tip, bent, black |
| 36001 | 22 gauge dispensing tip, bent, black |
| 37000 | 25 gauge dispensing tip, bent, blue |
| 37001 | 25 gauge dispensing tip, bent, black |
| 38001 | 26 gauge dispensing tip, bent, black |

Bendable 3/4" Dispensing Tips

- Ideal for aspiration and irrigation
- Blunt end, annealed cannula for easy bending
- Used for multiple dental materials such as etchants, sealers, flowable composites, irrigants and primers
- Luer-lock hub
- Made from Polypropylene and stainless steel

| | |
|-------|-----------------|
| 41000 | 18 gauge pink |
| 42000 | 20 gauge yellow |
| 43000 | 22 gauge gray |
| 44000 | 25 gauge blue |

Straight Plastic Dispensing Tips, Tapered Cannula

- Ideal for dispensing medium viscous materials
- Made from Polypropylene

| | |
|-------|----------------|
| 71001 | 18 gauge black |
| 71002 | 18 gauge white |
| 72001 | 15 gauge black |
| 72002 | 15 gauge white |

Curved Plastic Dispensing Tips

- Ideal for medium to light viscous materials
- Luer-lock hub
- Made from Polypropylene
- Available in custom colors

| | |
|-------|---|
| 78002 | 15 gauge all plastic curved dispensing tip, white |
| 78001 | 15 gauge all plastic curved dispensing tip, black |
| 79002 | 20 gauge all plastic curved dispensing tip, white |
| 79001 | 20 gauge all plastic curved dispensing tip, black |

Plastic Dispensing Tips, Straight

- 1" long tip
- Made from Polypropylene
- Tip covers available
- Available in black & white

| | |
|-------|--|
| 81002 | 14 gauge plastic tips, straight, white |
| 81001 | 14 gauge plastic tips, straight, black |
| 82002 | 18 gauge plastic tips, straight, white |
| 82001 | 18 gauge plastic tips, straight, black |

Curved Plastic Tip With Flock

- Dense flocked brush end
- Luer-lock hub
- Made from Polypropylene

73000 18 gauge tip with flock

Flocked Dispensing Tip With Bent Metal Cannula

- Ideal for viscous materials requiring scrubbing or additional placement after delivery
- Bristles do not occlude the orifice for a less restricting delivery
- Made from Polypropylene
- Available in custom colors

76001 Flocked dispensing tip with metal cannula, black, 22 gauge

Curved Dispensing Tip With Brush,

- Ideal for low viscosity material
- Tip cover available to prevent evaporation
- Made from Polypropylene
- Available in custom colors

77001 Curved dispensing tip with brush, black, 20 gauge

Capillary Tip

- Unique long flexible delivery tip
- Ideal for reaching difficult delivery sites
- Luer-lock hub
- Made from Polypropylene

74000 Capillary Tip, 21 gauge

Twist Off Bleach Dispensing Tip

- Ideal for dispensing large volumes of materials
- Reusable cap allows for multiple use
- Luer-lock hub
- Made from Polypropylene

75000 Twist off bleach dispensing tip

Flow Through Dispensing Tip With Padded Brush

- For use with non-evasive hemostatic solutions
- Curved cannula
- Luer-lock hub
- Made from Polypropylene and stainless steel

18001 Flow Through Dispensing Tip with Padded Brush, Yellow, 19 Gauge

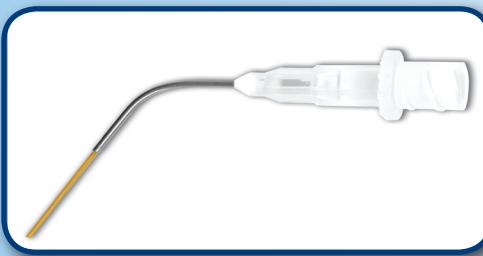

Flow Through Dispensing Tip With Adjustable Nylon Brush

- For use with low viscosity materials
- Curved cannula for optimal entry
- Adjustable brush length
- Offers controlled delivery of materials
- Luer-lock hub
- Made from Polypropylene and stainless steel

16201 Flow through dispensing tip with nylon brush, black, 19 Gauge

Flexible Dispensing Tip

- Designed for easy delivery of flowable composites
- Bendable with flexible tip
- Secure lock hub design
- Increases flowability of viscous materials
- Made from Polypropylene

14601 Flexible dispensing tip

Micro Flowable Dispensing Tip

- Ideal for controlled microscopic delivery of etchants and composites in most micro-restorative procedures
- Disposable polyimid tip
- Bendable needle
- Luer-lock hub
- Made from Polypropylene

| | |
|-------------|------------|
| 14501 | 26 gauge |
| 14502 | 27.5 gauge |
| 14503 | 30 gauge |

Flexible Glide Disposable Dispensing Tip

- Ideal for irrigation
- Bendable needle
- Luer-lock hub
- Made from Polypropylene and stainless steel

| | |
|-------------|-----------------|
| 14006 | 23 gauge yellow |
| 15001 | 30 gauge black |

Intra Oral Tips

- Fits all mixing tips
- Available in 2 sizes
- Made from Polypropylene

| | |
|-------------|---------------------|
| 51000 | Large 6.5mm, white |
| 52000 | Small 4.2mm, yellow |

Dispensing Tips . . . Irrigation Tips

Black Dispensing Tips

- All Plastic dispensing tip
- Bendable
- Economical
- Ideal for low viscous materials
- Made from HDPE
- Gauge size is 0.022"

725201 All plastic dispensing tip, bendable, black

Irrigating Disposable Needle Tips, Side Vented

- Side vented
- Luer-lock hub
- Made from Polypropylene and stainless steel

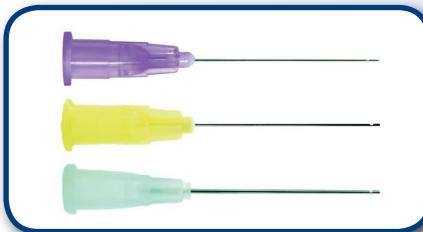

11005 23 gauge blue

12006 27 gauge yellow

13007 30 gauge purple

Irrigating Disposable Needle Tips, Closed End

- Close end, side port delivery
- Luer-lock hub
- Made from Polypropylene and stainless steel

11405 23 gauge blue

12406 27 gauge yellow

13407 30 gauge purple

Irrigating Disposable Needle Tips with Secure Lock

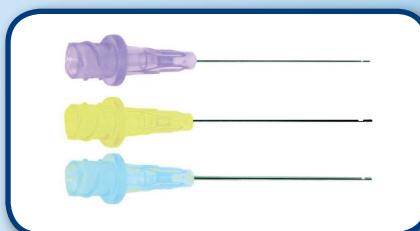

- Side vented
- increases safety and reduces cross-contamination

11205 23 gauge blue

11206 27 gauge yellow

11207 30 gauge purple

Irrigating Disposable Needle Tip, GTE Probe, Secure Lock, Closed End

- Closed end, side port delivery
- Increases safety and reduces cross-contamination
- Made from Polypropylene and stainless steel

11305 23 gauge blue

11306 27 gauge yellow

11307 30 gauge purple

Flexible Irrigation Dispensing Tip

- 30 Gauge nickel-titanium irrigating needle tips
- Side vented
- Autoclavable for multiple use
- Proprietary coating protects needle from corrosive effects of caustic materials
- Adjustable flexible needle
- Luer-lock hub
- Made from Polypropylene and stainless steel

16101 Short, 17mm
 16102 Long, 25mm
 16103 Mixed pack

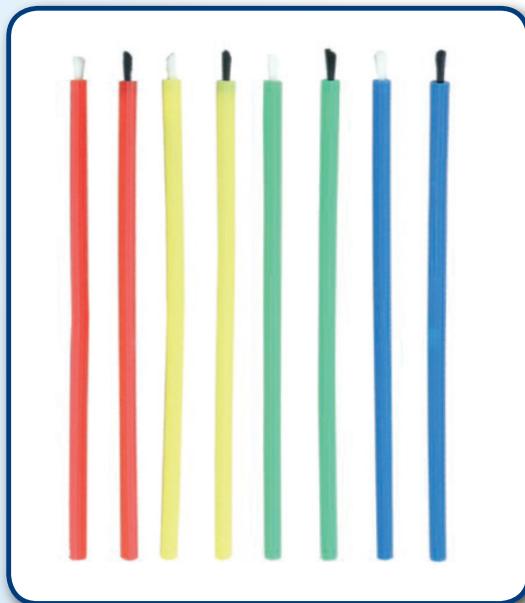

Pocket-Probe Tips

- Ideal for irrigating inter dental spaces and peripockets
- Flexible 2-piece curved plastic irrigation tip
- Closed end with multiple side perforation for thorough flushing
- Luer-lock hub
- Made from Polypropylene

17004 Pocket Probe

Disposable Applicator Brush

- Flexible wire core assures retention of shape.
- Use to apply etchants, resins and bonding agents
- Taper cut brush
- Available in regular or fine brushes
- Black or white brush (Please specify color of brushes)

55001 Fine
 55002 Regular
 55003 Assortment (half fine and half regular brushes)

Safety Irrigator New

- An end irrigation device designed for single-hand use
- Features large coronal evacuation tube
- Allows user to safely irrigate & evacuate simultaneously
- Fits all standard Luer-lock syringes
- Available assembled on a 6cc Luer-lock syringe with a side vented adjustable irrigating needle
- Evacuation tube also available separately

19001 Long, 16mm (adjustable 16-20mm)
 19002 Short, 12mm (adjustable 12-16mm)
 19105 Evacuation Tube Component

Composite Dispenser

- Autoclavable
- Ergonomic design
- Stainless steel metal plunger
- No obstruction of vision while dispensing
- Placement of logo available

91000 Composite Dispenser

Single Dose, High Viscosity Tubes, Plugs and Caps

- High Viscosity Tube
- Disposable
- Custom colors available
- Printing available

56701 Single Dose Tube, High Viscosity, Black, *Material - Nylon

56702 High Viscosity Plug, Black, *Material - LD-PE

56703 Cap, Black, *Material - HDPE

Unit Dose Delivery System

- Unique vial and brush applicator

56001 Unit dose delivery system

Female to Female Luer-lock Adapter & Male Tip Cap

- Ideal for transferring materials from larger syringe to smaller syringe
- Made from Polypropylene

53000 Female to Female Luer-lock Adapter

53101 Male Tip Cap

Mixing Spatula

- Made from Styrene
- Available in Polyester and Delrin plastic

54000 Spatula, white

Mixing Well, White

- For use with all materials
- Disposable
- Made from Polypropylene

579502 Mixing well, white
