

Morrison Medical's Original Head Vise I

Morrison Medical's Original Head Vise I – the head immobilizer that started the Head Vise family of disposable and reusable head immobilizers. Made from heavy duty, impervious corrugated plastic, The Original Head Vise I is completely waterproof and can be written on for easy identification. It also is x-ray translucent, easy to disinfect for reuse, and stores flat to fit in compact spaces. This head immobilizer features a quick and sturdy application. The rugged exterior is lined with a comfortable foam pad for patient comfort. The Original Head Vise I fits virtually all patients with an adjustable feature to fit children and adults. It is also compatible with helmets. The Original Head Vise I is sold individually or in cases of 18. Straps and replacement foam inserts are also available.

*Folds flat for compact storage.
Assembles easily for quick use.*
